COURSE SYLLABUS
SPANISH IB

COURSE DESCRIPTION

Spanish 1B (first-year Spanish, second semester) is a communicative beginning-level Spanish course. Students will continue to develop their Spanish proficiency through extensive interaction in the target language. Each unit begins with a video dramatization that introduces the functions, vocabulary, and grammar targeted in the unit. Through videos, students see and hear native speakers in authentic locations around the Spanish-speaking world. There are also numerous audio clips that reinforce the language taught through the video segments. Each unit also includes a variety of interactive activities, cultural notes, and cultural interviews. The activities help build competency in each of the four language skills—listening, speaking, reading, and writing. The quizzes, midterm, and final in this course are based on the Powerpoints and videos.

Another key component of Spanish 1B is assessment through project based learning. Every student will complete two projects during this course. These projects will allow students to demonstrate their mastery of the Spanish language concepts taught in this course, as well as the cultural concepts, in a modality that is appropriate for their unique learning style.

A Day in the Life: As part of the online Spanish 1B class you will create a project that will show two days in someone's life. This project will be presented the last unit of the class. The main objective for this project is to allow you to demonstrate what you have learned this semester through Spanish descriptions of someone's day. The type of product you choose should be in a format that allows for presentation to the online class. Power point is one option that would allow for easy online presentation, but you may come up with something more creative also! The main idea is that many pictures can be displayed with detailed written captions in Spanish. In the past students have used:

- Prezi Presentation
- Created their own website on Weebly
- Videos uploaded to YouTube
- MoveNote Presentation

ACADEMIC HONESTY

The following are forms of academic dishonesty. These practices will not be tolerated.

- **Plagiarism:** Plagiarism consists of using another author's words without proper identification and documentation of that author. Plagiarism takes the form of direct quotation without the use of quotation marks and/or documentation, or paraphrasing without proper identification and documentation. The fabrication of sources, or the act, deliberately or unconsciously, of passing another author's work off as your own are also considered to be plagiarism.

- **Falsification:** Falsification consists of deliberately changing results, statistics, or any other kind of factual information to make it suit your needs. It also consists of deliberately changing a source's intent by misquoting or taking out of context.

- **Multiple submission:** If you wish to turn in the same work or use the same research, in whole or in part, for more than one course, you must obtain permission to do so from all instructors involved. Failure to obtain this permission constitutes academic dishonesty. This course is a chance for you to explore your own creativity.
